圖表式閱讀測驗

Launched in 2004, Facebook makes today's teenagers the first generation to grow up with social media. While more and more adults are crazy about Instagram, Twitter, and other social media platforms, no other generation has social media and technology deeply rooted in their daily lives as those born after the turn of the century. A survey of social media usage among teenagers (13-17 years old) was published by Common Sense Media. The following is the result conducted in the U.S. in 2018.

Teens' Social Media Usage between 2012 and 2018

	2012	2018
More than once a day	34%	70%
Once a day	17%	3%
Several times a week	14%	4%
Once a week	7%	1%
Less than weekly	10%	3%
Don't use social media	17%	19%

1. Please draw a line graph from the chart above. The first one has been done for you.

2. According to the passage, what message does the author want to deliver?

- () 3. According to the passage, which of the following is **NOT** true?
- (A) In 2018, 19 percent of teenagers never use any social media.
 - (B) In 2012, more than 20 percent of teenagers use social media less than a week.
 - (C) During 2012–2018, there are fewer and fewer teenagers not using social media.
 - (D) Nowadays, more and more teenagers check their social media apps every day.
- () 4. According to the chart, what is the percentage of teenagers that use social media more than once a week in 2018?
- (A) 86%. (B) 77%. (C) 68%. (D) 59%.
