In 1895, Taiwan became Japan's colony. From then on, Taiwanese people had no choice but to live under political violence. They did not enjoy equal rights, nor did they have a political voice in government.

This unfair treatment prompted some Taiwanese to fight for their freedom. Among them was Lin Xian-tang, who urged Japan 11 the Taiwanese govern themselves in 1921. Later that year, Lin and others, including Chiang Wei-shui, 12 the Taiwan Cultural Association (TCA). Their first public meeting, 13 took place in Taipei's Da Dao Cheng neighborhood, brought over a thousand people together.

The TCA started a newspaper-reading club to regularly inform the public of current events. Members also arranged classes, speeches, and lectures to educate people about history, economics, science, and health. 14 they met up, they discussed what they could do to improve the lives of the Taiwanese people.

The founders of the TCA bravely demanded human rights for many Taiwanese people 15 to find a voice. Needless to say, they were pioneers of Taiwan's democracy.

From 1895 to 1945, Taiwan was a colony of Japan. This colonial period began as the First Sino-Japanese War ended in 1895, when the defeated Qing dynasty gave Taiwan and the Pescadores (today known as Penghu) to Japan as part of the Treaty of Shimonoseki. For the next fifty years, Taiwan remained under Japanese rule.

Today, people have very different opinions about this period of Taiwan's history. On the one hand, some people view this colonial era in a positive light. They say that this was a time of strict, but many advancements were made in Taiwan at this time. For example, Taiwan's transportation system improved greatly during this time, with the completion of modern railways and roads around the island. Major advances were also made in education, health care, and agriculture. For Japan, Taiwan was a "model colony." Some say that the Japanese did many things to help make Taiwan become prosperous and successful.

On the other hand, some people take a negative view of Japanese colonial rule in Taiwan. These critics say that the treatment of the Taiwanese people were very cruel, especially for the aboriginal tribes. This can be seen in particular in the Wushe Incident, in which Japanese soldiers killed a lot of members of the Seediq tribe. The incident was later dramatized in the movie *Warriors of the Rainbow: Seediq Bale* (2011).

Without a doubt, this colonial period had a huge impact on Taiwan. Whether the impact was

positive or negative, it's important that people remember and learn from history.
